

SQUARE FOOT GARDEN SOIL RECIPE

**3 BAGS OF LEAF GRO
LEAF COMPOST**

**3 BAGS OF MUSHROOM
COMPOST**

1 2.2CUFT BALE PEAT MOSS

1 4CU FT BAG VERMICULITE

This is the standard recipe for a 4ftx4ftx6" raised bed. Figure the cubic footage by multiplying the length times the width times the depth of the box. Line the bottom of the box with weed barrier or several sections of newspaper, to prevent weeds from poking thru the bed. Feed your plants with an organic, slow release fertilizer like Espoma Garden-tone, once a month. Raised beds can be netted to keep animals out, and plants can also be trellised for support. Growing a raised bed garden is no different than growing a regular garden.
